- Additional anti-ligature design features available (sloping top, curved door tops)

# Ontario

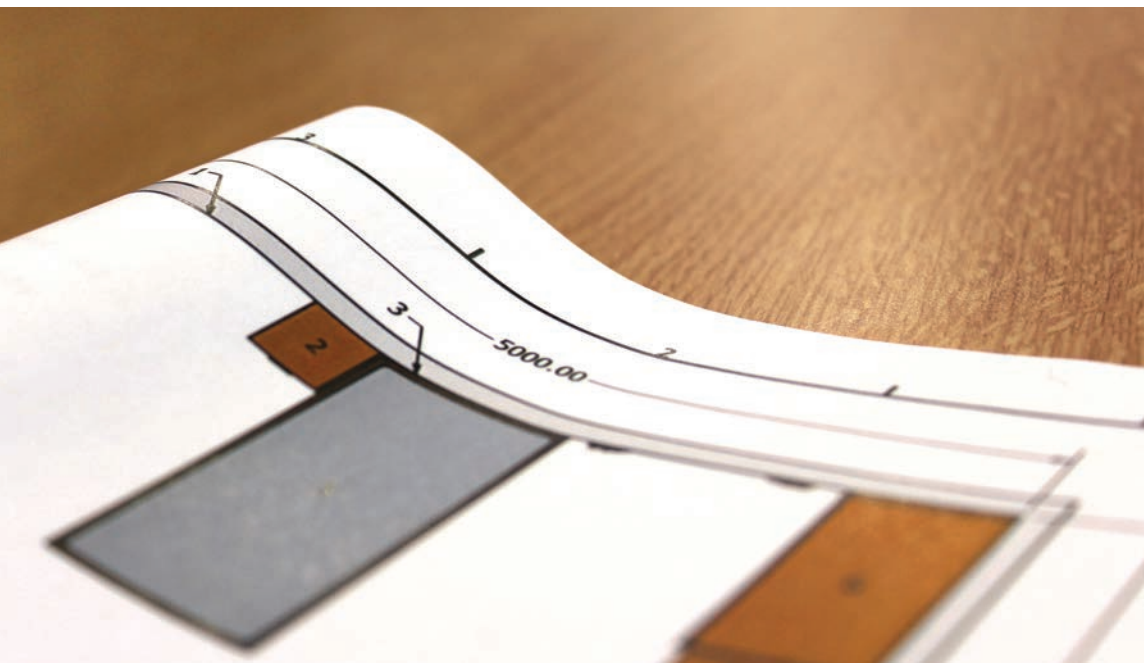

- Stylish brushed metal handles
- Suitable for lower risk environments

With you every step of the design  
and installation process

## From concept...

After conducting a site survey, initial elevation drawings are provided for approval. Then choose from over 200 finishes and see your choices visualised in a life-like 3D computer generated image.

## ...to reality

Finally, your site is given a safety check before our skilled installation team securely fits all items in place. They are then sealed for infection control and anti-concealment.

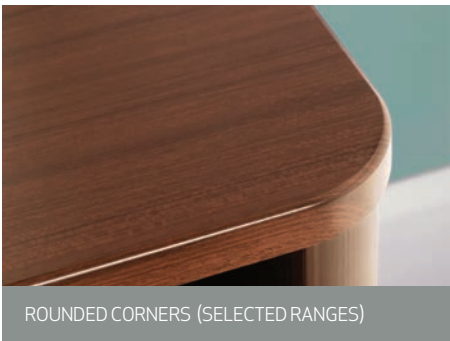

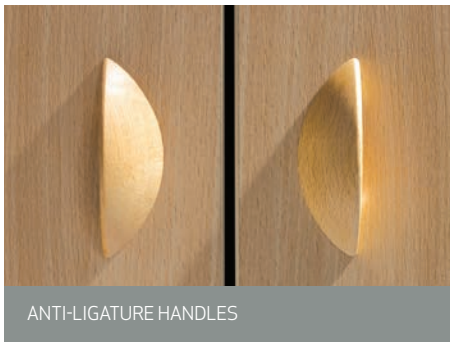

# Built with care

Off-the-shelf doesn't suit everyone. Choose from a wide range of options to create the perfect environment.

## Options

## Construction

### Melamine faced chipboard (MFC)

- Durable exterior finish
- High density and strength
- Resistant to shrinkage and expansion

### Melamine faced MDF

- Comparable qualities to MFC, but with:
- Higher density
  - Improved impact resistance
  - Improved bending strength

# To your specification

Each project presents a different challenge which requires a made-to-measure solution.

“ Our state of the art manufacturing capabilities allow us to cut and finish completely bespoke designs – the possibilities really are endless ”

Neill Smith, Projects Manager

# Completed schemes

## HM Naval Base, Portsmouth

Tight spaces, a busy construction site and irregular room sizes made this installation more challenging than most. Our experienced team took it in their stride, working alongside other tradesmen on site to complete on time and to our usual high-quality finish.

## Mental Health Rehabilitation, North Yorkshire

Providing support and accommodation for residents in rehabilitation, this centre was recently fully refurbished. We provided bespoke fitted furniture - designed to minimise ligature risks - in a Cherry wood finish. The wardrobes were fitted flush to the ceiling and fixed securely to the wall for safety.

“Thank you and your team in completing this project and the standards that have been achieved considering the time constraints involved”

Assistant Commercial Manager, Interserve Defence Ltd  
Contractor at HM Naval Base, Portsmouth

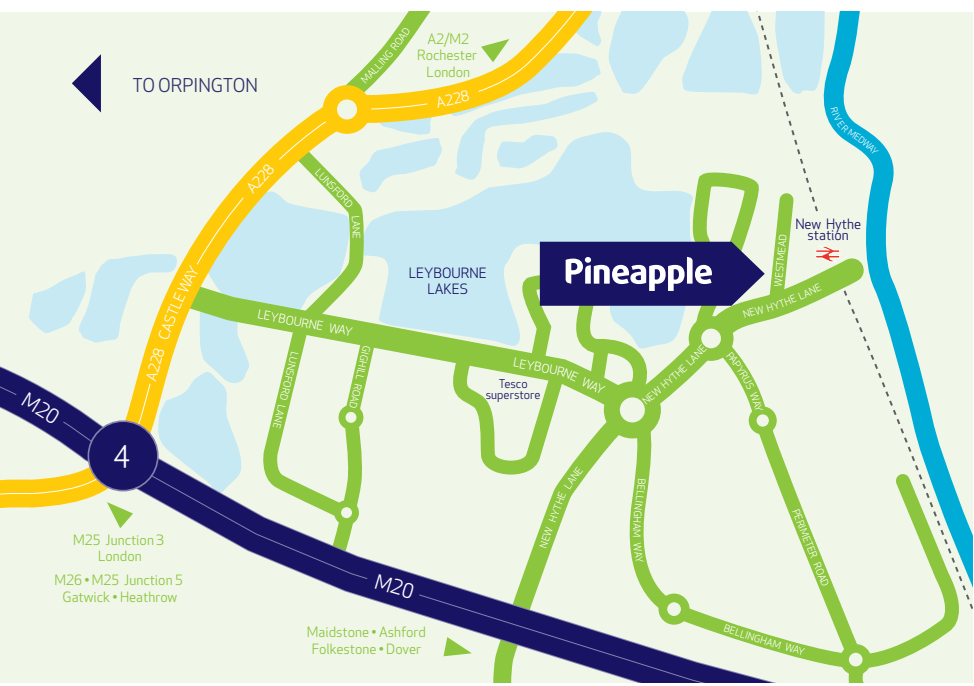

## Psychiatric Intensive Care Unit, Manchester

Safety is paramount in a PICU, so our Hamble Plus range was perfect for the job. Curved door tops, sloping tops and anti-ligature hinges were all used to create a safe environment with a homely feel.
