EDUCATION FURNITURE

About us

Over 40 years' expertise transforming challenging environments

Our expertise

For the past 40 years we have been helping to transform challenging environments with style and quality, with total commitment to safety and durability.

Our products are strength and stability tested to British Standards for severe non-domestic use and are fire retardant to Crib Source 5 minimum (Crib Source 7 available for certain products) to give you peace of mind.

Our aim is to use human-centred design to help you achieve your strategy and vision of creating safer environments for residents and staff alike.

Our service

- 7 year guarantee* against manufacturing faults
- Free demonstration furniture
- Free spaceplanning design service
- Free showroom tours

*applies to our core range

Visit our showrooms

then

We first opened our doors back in 1975 in a 1,0002 ft workshop, where furniture was hand-made to order under the name "Pine Productions". Charles Hathorn, our Managing Director is pictured above learning the ropes in the workshop!

As demand for pine furniture began to wane, we moved our focus to contract furniture, and in 1987 became "Pineapple Contracts".

now

We recently opened our purpose-built office building and 100,0002 ft manufacturing and storage facility near Maidstone, Kent. Our 7,0002 ft showroom offers customers the chance to experience the furniture first-hand.

Built to last

We have been creating furniture for demanding environments like hospitals, mental health units and prisons for more than 40 years. Our experience has taught us the real meaning of 'built-to-last' and has given us a knack for finding innovative solutions to real-world problems.

Whether that means selecting intelligent materials or employing "belt and braces" woodworking techniques, you can be confident that our furniture is built to last.

Our products are protected by a 7 year guarantee against manufacturing faults.

Level 1

Traditional durable construction - perfect for low risk areas

Level 2

A more resilient seat platform construction for demanding areas

Level 3

Extra-strong seat & back construction for challenging environments

Level 4

Extra-strong seat & back construction with an reinforced base designed to prevent concealment

Levels 1, 2 and 3

St Hilda's College

Moodboards
and spaceplans
helped the
client to visualise
the end result

Originally founded in 1893 as an Oxford hall for women, St Hilda's is now a fully mixed Oxford University College, one of the 38 colleges at the University of Oxford. After an initial consultation, our design team developed a bespoke package which balanced the vision and budgetary requirements of the client. We presented our proposals with moodboards and spaceplans to help the client to visualise the end result.

During the next phase we installed a sample room in the building, allowing the customer to evaluate the quality of the workmanship. We also provided an opportunity to explore any potential design changes before proceeding with full production. The finished project included bedroom items from our Ontario range in a bespoke finish along with Boxer tub chairs and versatile stacking Touch chairs to match the client's Grey and Yellow colour scheme.

Maidstone Grammar School

// The new furniture has been a huge success in our sixth form common room. It is colourful, comfortable and robust - in short everything we needed it to be. So far it would appear that the significant investment involved was both wise and pragmatic. //

During a recent refurbishment of their 6th form common room, Maidstone Grammar School selected durable, contemporary furniture from Pineapple's range.

Making use of the free space planning service, the client was able to optimise the seating arrangements, striking a balance between seating capacity and comfortable spacing.

In the dining area, Touch chairs in Blue, Yellow and Grey (to compliment the School's colours) sit around Cumulus dining tables, helping to create a modern and vibrant space

for students to eat and study. Thanks to their stackable nature, the Touch chairs can be easily tucked away, allowing the space to be repurposed when necessary.

At the opposite end of the room, Ryno chairs (also matching match the School's colours) provide a fun, and informal space for students to socialise in.

The finished project is a bright, modern, colourful space in which students can eat, work and socialise.

Godolphin School

// I would just like to say how pleased we were with the furnishings and the customer support we received from you – first class. //

Godolphin School - a boarding and day school in Salisbury - has been educating girls for almost 300 years. Their Sixth Form Centre was recently refurbished, resulting in a strikingly modern learning environment.

The project gave the opportunity to establish a fresh new colour scheme, which was achieved by balancing bright and vibrant furniture with a more neutral decorative palette within the rooms.

Low back Eclipse sofas and Kava chairs help to set the contemporary tone in Reception, while stackable Touch chairs along with more Kava chairs provide versatile seating options in the conference rooms. Both chairs boast chrome ski legs which makes them quick and easy to re-arrange.

Residential spaces

“Off-the-shelf” doesn't suit everyone

Our bespoke manufacturing capabilities allow us to produce completely unique solutions, intelligently designed to help you make the most of your space.

Choose from hundreds of custom finish combinations to create an environment that works best for you.

Our 4-stage approach to help transform your environment

Listening

We start with the most important part of the process – spending time exploring how you’re going to use your space. By listening to what you want to achieve we can tailor our approach accordingly.

Designing

Our experienced design team can now begin to combine the essential requirements with thoughtful design details which will make a real-world difference to how students will interact with their new environment.

Creating

With our bespoke manufacturing capabilities and experienced installation team, we are able to create completely unique solutions to help you make the most of your space, whatever shape or size it may be.

Supporting

Our service doesn't end once delivery is made – we're always on hand to give on-going support, and our dedicated after sales team are available to help with any issues that may arise.

The above products are available in these finish options:

Ash Beech Oak Walnut White Grey

We offer 4 categories of upholstery:

	<p>VINYL</p> <p>Hard wearing and water resistant, leather-effect vinyls can be wiped clean which makes them a hygienic and practical option for healthcare environments.</p>	<ul style="list-style-type: none"> ✓ Clean regularly with soap and water ✓ For extreme soiling use Haz-Tabs ✗ Solvents, polishes or alcohol cleaners must not be used
	<p>WATER RESISTANT FABRICS</p> <p>A durable option which combines the comfort of soft fabric with practical water resistant properties. Please be aware, these fabrics are more susceptible to stains than vinyl.</p>	<ul style="list-style-type: none"> ✓ Clean regularly with vacuum and a damp cloth ✓ For extreme soiling use Haz-Tabs ✗ Solvents, polishes or alcohol cleaners must not be used
	<p>NON WATER RESISTANT FABRICS</p> <p>These fabrics are typically soft and comfortable, but are susceptible to stains and should not be used in areas where soiling is common.</p>	<ul style="list-style-type: none"> ✓ Clean regularly with vacuum and a damp cloth ✓ Remove spills and rinse thoroughly to prevent clogging of fibres ✗ Bleaches, solvents, abrasives or alcohol cleaners must not be used
	<p>LEATHERS</p> <p>Natural and tactile, leathers provide a touch of luxury, but should not be used in areas where soiling is common.</p>	<ul style="list-style-type: none"> ✓ Dust and vacuum regularly ✓ Damp cloth and mild soap to remove stains ✓ Moisten entire surface to prevent water marks ✓ Use leather cleaner for stubborn stains ✗ Do not use heat to dry

Tips to help you select the best upholstery for you:

PATTERN

Patterns can be used effectively to support a theme or colour scheme. As well as the obvious aesthetic benefits, some patterns can also disguise small marks and stains, prolonging the life of your furniture.

Particular care should be given when specifying patterned fabrics for residents are living with dementia. Patterns in certain circumstances may cause confusion, especially when used on seat cushions or arm caps which should be easily recognisable to prevent distress and falls.

LIGHT

Lighting conditions can have a significant effect on the appearance of colour, which is why we always recommend requesting a free swatch. Use it to evaluate your chosen fabric in the same conditions that the furniture will be located to get an accurate indication.

The impact of texture should also be considered - direct sunlight can produce reflective glare which can be reduced by careful upholstery selection and positioning.

FLAMMABILITY

All upholstered furniture we supply conforms to BS7176:2007 Medium Hazard FR5/Crib 5.

For high hazard environments, FR7/Crib 7 rated upholstery ranges are also available.

COLOUR

Whether you want to create a warm, cosy snug or a serene environment inspired by nature, colour can be a useful tool for establishing the atmosphere of a room. Different colours can also be used to visually separate furniture groupings in large, open spaces.

DURABILITY

The industry standard test for durability is the Martindale abrasion test. For furniture in challenging environments which may be subjected to repetitive behaviour, we recommend a rating of over 100,000 rubs.

PLEASE NOTE

- Colour transfer from jeans or other textiles and cracking/stickiness of vinyl upholstery are not covered by our manufacturer's guarantee.
- Fluids can still penetrate through stitching and zips.

Peace of mind

Responsibly sourced

We recognise the need to balance great design and service with responsible and ethical environmental practices.

Our commitment to these ideals is demonstrated in our ISO 14001: 2004 and ISO9001:2008 awards, and our FSC® Chain of Custody certificate INT-COC-001353. In addition, we are certified under PEFC Chain of Custody certificate INT-PEFC/COC-001353 and have full membership of the Furniture Industry Sustainability Programme.

FSC certified products available upon request.

Strength tested

All of our furniture is strength and stability tested to contract level.

The picture above shows one of our sofas undergoing strength and stability testing, to BS EN 16139:2013 Level 2 (severe contract use).

In this demanding test, seat and back durability is tested at least 100,000 times - the equivalent of over 50 years of use!

Flame retardancy

Flame retardant to contract level, all of our upholstery and fabrics meet BS 7176:2007 Source 0, 1 and 5 [Formerly BS5852 Source 0, 1 and 5].

We also supply fabric and mattresses which meet Crib Source 7.

This allows you to purchase with complete confidence knowing that all our products and fabrics are fully tried and tested.

Other services

Showrooms

Our showrooms in Kent and Yorkshire house a wide range of our furniture, allowing you to take a closer look and compare the design details which make each range different.

Sample furniture

To help you make the furniture right choice for your environment, you take advantage of our free sample furniture service. We'll deliver and collect for free.

Space planning

Our experienced design team are ready to help you create the perfect environment – they will make recommendations depending on what you're looking to achieve, and will produce 3D visuals to help you decide.
