MATERIAL/FABRICATION

Heavily weighted carcass made from a combination of melamine-faced particle board and vinyl-wrapped medium density fibreboard. Complete with fully glued, fixed shelves to prevent removal as well as anti-stash panels. Corners are smooth and rounded for additional safety as well all edges being lipped in tough 2mm PVC. Security fixings as standard.

CLEAN-TEC⁺ is a solid, water-resistant material with a tactile feel and a seamless smooth finish. Highly resistant to bacteria and mould, CLEAN-TEC's non-porous nature makes it ideal for stringent infection-control practices and its low VOC (volatile organic compounds) minimise harmful emissions while supporting indoor air quality.
