MAINTENANCE

For superficial dirt use a disposable wipe and a warm solution of neutral detergent. Do not use abrasive cleaners and disinfect in situ using 0.1% sodium hyperchlorite solution (1000 parts per million chlorine). Avoid the use of biological or phenolic-based cleaners. All cleaning agents and disinfectants must be thoroughly rinsed off and the cover dried before storage or re-use. It is advisable to turn the mattress from top to bottom and side to side on a regular basis to give the foam core a chance to recover and prolong the life of the mattress
