- Strength and stability tested to contract levels
- Optional locks to drawers
- Durable metal drawer runners
- Optional 12mm CLEAN-TEC Solid-Surface top

MATERIAL/FABRICATION

Harby's carcass is made from a combination of 25mm melamine-faced particle board and vinyl-wrapped medium density fibreboard. Double thickness drawer fronts with 18mm back and sides and 18mm drawer bottoms result in a very robust drawer. Corners are smooth for additional safety as well all edges being lipped in tough 2mm PVC.

CLEAN-TEC* is a solid, water-resistant material with a tactile feel and a seamless smooth finish. Highly resistant to bacteria and mould, CLEAN-TEC's non-porous nature makes it ideal for stringent infection-control practices and its low VOC (volatile organic compounds) minimise harmful emissions while supporting indoor air quality.
