

## KEY FEATURES

- 25mm thick tops and 18mm Hickory melamine-faced carcass
- Strength and stability tested to contract levels
- Optional 12mm CLEAN-TEC Solid-Surface top

### MATERIAL/FABRICATION

Harby's carcass is made from a combination of 25mm melamine-faced particle board and vinyl-wrapped medium density fibreboard. Corners are smooth for additional safety as well as all edges being lipped in tough 2mm PVC.

CLEAN-TEC\* is a solid, water-resistant material with a tactile feel and a seamless smooth finish. Highly resistant to bacteria and mould, CLEAN-TEC's non-porous nature makes it ideal for stringent infection-control practices and its low VOC (volatile organic compounds) minimise harmful emissions while supporting indoor air quality.

### OPTIONS

- Other coffee table sizes and styles available (see below)
- More available in the Harby Lounge range
