DESIGNED FOR PEACE OF MIND

Designed by  
Ingemar Jonsson

Strong, stylish furniture suitable for challenging environments can be hard to find. In combining the old with the new - traditional solid wood manufacturing techniques and modern lamination production - we have been able to ensure that the whole Rock range is both elegant and robust.

Many studies have been conducted linking calm spaces with recovery in mental health facilities and one way of achieving this is to bring the outside in, using organic curves and natural materials. Introducing Rock; our tactile, Scandi-inspired range that brings a sense of nature indoors to help foster recovery and bring a sense of calm to challenging environments.

ROCK

DINING CHAIR

Combining strength and beauty, Rock is an elegant but robust range of tables and chairs designed for challenging environments.

Key to the range's strength are the interconnections which join each leg together, creating a rigid solid birch frame which maximises durability and minimises damage.

Table and chair legs are tapered inwards to provide a stable base, and table tops are profiled to minimise damage in the event of overturning.

Product code: 1RK1

Dimensions: 810H | 520W | 540D (mm)      Seat height: 460mm

EASY TO CLEAN

→ Single-piece laminate surface is easy to keep clean

STRONG INTERCONNECTIONS

→ Interconnections joining each leg together are key to the range's strength
