DESIGNED FOR PEACE OF MIND

Designed by
Ingemar Jonsson

Our Wave sneeze screens create a subtle physical barrier, providing protection from airborne particles which can transmit viral infections.

The 6mm mild steel powder coated base plate provides strength and stability and the 60mm lacquered plywood base forms the 4mm wipe-clean Plexiglas® screen in an organic wave shape, secured with 9 tamper-resistant bolts.

Our Wave screens give the flexibility to create non-invasive zones for working or rest, maximising safety while benefiting the aesthetics of the environment.

FLOOR SCREEN

Dimensions:

1800H | 1000W | 300D (mm)
