

**DESIGNED FOR PEACE OF MIND**

**Pineapple**

	When we design furniture for some of the most difficult environments imaginable,	<b>DESIGNED FOR PEACE OF MIND</b>	
	the first thing we do is listen. Listen to our customers' unique challenges, their day to		
	day needs and above all, who they need to look after.		
	Listening is the first step of the 'Pineapple Process', helping us to find furniture that		
	precisely solves the problem. If we don't have something suitable, we create it.		
	Innovative solutions, technical expertise and thoughtful design, we take pride in		
	creating furniture that's exactly fit for purpose.		
	Our customers get mindfully designed furniture that works effortlessly and looks		
	great. But much more than that, they can go to work knowing they've done		
	everything they can to create a calm environment.		

## IT ALL BEGAN IN

Our founder, William Hathorn, started our company in a workshop in London, England. Originally trading as Pine Productions, based on the popular wood we used to build our furniture, we crafted strong, durable products using traditional carpentry methods. But as our business grew and we began to provide furniture in a variety of materials for the healthcare market, the name no longer fitted. So, with a nod to our beginnings, we took a bold step and became Pineapple.

As our reputation for designing for demanding environments grew, so did demand for our products and we soon expanded into new premises, doubling our production capacity. We started creating technically advanced furniture for secure settings like mental health units and prisons, as well as lower risk spaces like hospitals, healthcare and education facilities.

# 1975

# TODAY

## 45 YEARS OF INNOVATION

We continue to create innovative furniture to deliver real-life solutions for our customers and, from initial concept right through to manufacture and delivery, we have full control of the process. All of our designs are either manufactured by us or by our carefully chosen partners who produce our furniture under license to meet our precise specification and design.

While our business is now international and our vision more ambitious than ever, we're still a family business at heart. Our work ethic and attention to detail is exactly the same as when we started in 1975.

THE PINEAPPLE PROCESS

# We listen

01

We listen more widely and more deeply to our customers' unique set of challenges; they might be safety concerns, maintenance issues or limited space. With forty years of experience under our belts, we're good at listening and know the right questions to ask.

02

# understand

Drawing on the expertise of our Global Advisory Board and our knowledge of best practise, we identify solutions that fit each brief. Then we define exactly what your furniture needs to deliver purpose for your environment, taking physical, functional and emotional needs into account.

03

# match

Now we understand your environment and precise needs, we can match you with the right products that will solve them. With hundreds of ranges to choose from, there is usually a solution that fits but if there isn't, we'll work with you to create one.

04

We deliver mindfully designed furniture that is exactly fit for purpose. We continue to learn from each new project, building the knowledge we gain into our new and existing product ranges to make them safer than ever.

# deliver

We helped to create an inclusive, healing space for this mental health inpatient unit in Northern Ireland.

# BELFAST CITY HOSPITAL

*Reinforced furniture was used to create a tranquil environment which is relaxing and safe in equal measure*

From the outset, Belfast Health and Social Care Trust's recently opened Acute Mental Health Inpatient Unit was designed to be an inclusive, healing space for its residents. The unit comprises 80 bedrooms, 6 psychiatric intensive care unit (PICU) beds and variety of gardens and shared spaces.

With careful upholstery selection, reinforced furniture was used to create a tranquil environment which is relaxing and safe in equal measure.

In the communal lounges, Rubus sofas provide sturdy durable seating, paired with Cumulus coffee tables in a bespoke wood-effect finish, while Cumulus dining tables with matching wood-effect tops and Eclipse chairs create an informal dining/study space.

Reinforced Skye Plus and modular Ohio Plus offer relaxed seating throughout the building, while Snug Plus modular units have been used to create a variety of cosy layouts to suit each space.

Bespoke fitted cabinetry and brightly coloured furniture helped to create a safe, homely environment for this child-focused home.

# LANSDOWNE CHILDREN'S CENTRE

Lansdowne Children's Home is a purpose-built secure children's home in East Sussex which provides accommodation and education facilities for young people, focusing on the educational, emotional and physical wellbeing of the children.

For the TV rooms and other communal spaces, we designed and installed bespoke fitted cabinetry to provide securely lockable storage space. The blues, greens and muted pink finish of the cabinetry follows the therapeutic colour palette seen throughout the building.

Ryno® dining chairs (weighted to 56kg to prevent misuse) were coupled with Cumulus Plus tables (weighted to 71kg) to provide safe and stylish furniture for dining or other activities.

All-foam Cascade Plus chairs provide soft seating with a tear-resistant anti-vandal cover. Heat welded seams make the chairs totally water-resistant which means they can be thoroughly cleaned and dry quickly, ready to be used again.

Providing easy access to good quality outdoor space was one of this building's fundamental design principles.

# ST ANN'S HOSPITAL

*"We selected Pineapple because of their excellent knowledge of the healthcare sector and their range of products suitable for high-risk environments"*

Throughout the ward corridors and outside garden areas our Ryno® benches and Ryno® stools were selected to provide areas of rest and relaxation.

Our robust Ryno benches can be weighted to up to 81kg, making them very difficult to pick up or mishandle. They can also be secured in place using our hidden floor fixing method (UK patent pending) to further reduce risks.

Our Ryno range has been designed to allow rainwater run-off and is totally waterproof, making products perfect for outdoor use.

We designed and manufactured bespoke fitted furniture in the bedrooms, installing them securely into a recessed portion of the wall.

The cabinetry was designed without doors to minimise ligature risks. All shelves and desk tops were reinforced with support panels, fixing them securely in place and creating a very strong and damage-resistant solution.

Can't make it?

If you can't make it to see us, we can always bring furniture samples to you.  
 Our demonstration models are an ideal way to help our customers make the right choice when it comes to furniture.

# THE FULL PACKAGE

Our extensive furniture range can be used to furnish all areas of a modern facility, helping to create a safer environment for patients, staff and visitors.

**Dining area**  
Stress can be heightened during mealtimes, so our furniture is designed to minimise conflict as well as withstand outbreaks of challenging behaviour. Our Ryno® activity table weighs 140kg to prevent overturning and preserve safety.

**Quiet lounge**  
Modular reinforced seating like our Snug Plus range can help to encourage social inclusion, while soft foam shapes and cosy beanbags provide a safe space for quiet reflection.

**Waiting area**  
Space efficient, easy-to-clean designs like Skye provide comfort for visitors while enabling staff to fulfil their duties more efficiently.

**Bedroom**  
Bedrooms are private spaces where round-the-clock observation may not be practical. Our safest bedroom ranges are designed to minimise ligature risks and reduce opportunities for damage.

**Outdoor space**  
Products in our Ryno® range are totally water resistant and UV stabilised, and are heavily weighted as standard, making them a safe and durable option for outdoor spaces.

**TV lounge**  
Lockable wall and floor mounted TV cabinets with durable polycarbonate screens offer protection for equipment, and there is extensive choice in our broad range of sofas.

# RYNO<sup>®</sup>

Ryno products are made to the highest standards and designed to withstand the harshest treatment, representing value for money over their lifetime.

All have been created with safety in mind, with all their characteristics resulting in safer settings for users and staff.

### Weatherproof

Ryno products are totally water-resistant and UV-stabilised, making them suitable for indoor and outdoor use in all weather

### Lifetime guarantee

All Ryno products are covered by a lifetime guarantee against manufacturing faults, providing additional peace of mind below

### Non-flammable

The entire Ryno range is fire-retardant, adding an extra level of safety essential in challenging environments

### Fixing

Using our unique hidden fastening methods, Ryno products can be secured to floors and/or walls, deterring weaponisation and reducing opportunities for concealment above

### Strength

Their one-piece construction enables Ryno products to withstand extreme treatment, with smooth curves distributing impact evenly throughout the product

### Hygienic

Ryno products are anti-bacterial and their water-resistant nature means they can easily be wiped clean, ready to be used again

*Ryno multi-purpose cleaning wipes are available upon request*

### Heavyweight

Ryno products can be heavily weighted to make them near-impossible to pick up or throw, to create safer environments

# RYNO<sup>®</sup> MATERIAL

Ryno products are manufactured from a unique polyethylene compound developed to create safe, durable products

	<p>A UV-stabilizing additive protects Ryno products against the damaging effects of the sun's rays, limiting color fading and brittleness when used for extended periods outdoors.</p>
	<p>Ryno products are UL94 HB compliant due to the inherently flame-retardant properties of our polymer.</p>
	<p>The addition of Silver Oxide inhibits bacterial growth, preserving high levels of hygiene and infection control throughout all Ryno products.</p>

# RYNO<sup>®</sup> COLOURS

A palette of therapeutic hues

Colour can play a key role in humanising healthcare environments, which is why we enlisted the help of SeymourPowell, one of the world's leading design and innovation consultancies, to assist us in selecting a palette of therapeutic hues.

Whether the aim is to create a soothing and reassuring space or provide inclusive stimulation, our unique colours can help to achieve it.

# RYNO<sup>®</sup> BEDROOM

The products in this unique collection are manufactured in a single continuous piece.

This helps to create extremely durable products which, unlike traditional cabinetry, cannot be disassembled to be used as weapons.

The one-piece design is also eliminates gaps, making the products totally water-resistant and prevents the concealment of contraband.

Organic curves and ripple details evoke a natural feel, helping to nurture recovery below

Innovative hidden floor-fixing options (UK patent pending) help to create safer spaces for patients and staff

Integrated clothes storage solution minimises ligature risks above

Optional infill panel minimises concealment opportunities when the bed is positioned against a wall left

# RYNO® BEDROOM

**Ryno Chest with 3 compartments**  
 1RYOC  
 735H | 698W | 507D (mm)

# REINFORCED

# FOR PEACE OF MIND

All of our products are designed and tested for use in demanding environments, but for the most challenging spaces, our sofas on pages 61-101 have extra reinforcement for maximum strength and durability.

# STANDARD VS PLUS

<b>STANDARD</b>	Durable construction, perfect for low risk spaces	
	<p>Webbed back</p> <p>+ Reinforced seat adds strength &amp; durability</p>	<p>Cloth underside</p>
<b>PLUS</b>	Enhanced strength and safety features for challenging environments	
	<p>+ Reinforced back adds strength &amp; durability</p> <p>+ Reinforced seat adds strength &amp; durability</p>	<p>+ Reinforced underside adds strength &amp; reduces concealment opportunities</p>
	<p>→ Security screws are used (where accessible) to prevent tampering</p>	<p>→ No piping to reduce ligature risks</p> <p>→ No staples to reduce self-harm risks</p>

## DE-ESCALATION COUCH

# JAK

In situations where a patient is in severe distress and initial verbal de-escalation techniques have proven ineffective, physical intervention may be used as a last resort to prevent the patient causing harm to themselves and others.

During physical intervention staff will aim to restrict the patient's movements using the minimum force required, maintaining patient dignity. These interventions can be physically demanding, presenting risk of injury.

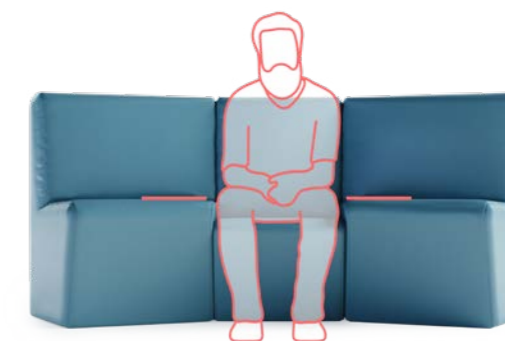

Through live service evaluations with clinical professionals, every angle of this couch has been optimised to support safer de-escalation practices for patients and staff alike.

### ANGLED DESIGN

- Outer seats angled at 33° to allow closer patient engagement, aiding verbal de-escalation
- Tapered footwell aides staff in safe de-escalation practices

### LOWERED CENTRAL SEAT

- Helps to control lateral movement
- Gives staff superior leg control

### UPRIGHT SEATING POSITION

- Preserves patient dignity
- Supports staff in de-escalation processes

Evidence-based design providing support when it's needed most.

Beneficial for all levels of intervention

Designed and developed in association with:

Andy Johnston Associates

Andy Johnston is a Clinical Director and independent mental health consultant with over 32 years of experience in mental health services including conflict resolution and physical intervention.

*"Staff body positions are supported throughout a seated intervention - great to see such a design"*

Physical intervention specialist

## JAK DE-ESCALATION COUCH

## KEY FEATURES

- 28mm side panels for strength with solid reinforced under rails
- Enclosed base to minimise concealment opportunities
- Heavyweight to deter misuse
- Smooth rounded corners for safety

## OPTIONS

→ Available in Hickory and Walnut finish

# SOVIE

This range has been designed to provide an ideal safety solution for beds in challenging environments.

**Strength**  
Internal support ribs provide extra strength and durability

**Water resistance**  
Sovie's one-piece mattress platform has no joints or crevices through which liquid can permeate, preserving hygiene and infection control levels

## Kydex material

The Sovie bed is coated in Kydex – a tough plastic which is commonly found in aircraft interiors. Kydex is an extremely durable finish which withstands impact and is resistant to tough chemical cleaners.

### Flame retardant

Kydex has flame retardant properties:

- Achieves Class A rating (the highest) for ASTM E-84\* surface burning characteristics of building materials
- Is self extinguishing in the absence of an external flame

### Anti-bacterial

Kydex resists bacterial and fungal development:

- It provides no source of nutrients (unlike some other plastics)
- Passed ASTM G-21\* (bacteria) and ASTM G-22\* (fungus) by supporting no bacterial or fungal growth

### Chemically resistant

Kydex remains unaffected by some of the harshest chemicals:

- 70% Nitric acid
- 30% Sulphuric acid
- 10% Hydrochloric acid
- Ammonia
- 3% Hydrogen

### Installation

Beds can be securely fixed to the floor, using infill panels to minimise concealment opportunities when positioned against a wall

**Weir safety mirror**

## KEY FEATURES

- Tear-resistant, fire-retardant, anti-vandal polyurethane cover
- Water-resistant heat welded seams to prevent liquid penetration – ideal for incontinence
- CMHR foam interior

## OPTIONS

- Available with integral pillow
- Available fire retardant to BS7177 source 5 and BS7177 source 7

# SCORPIO COLLAPSIBLE

Versatile design serves multiple functions including making it usable for soft seating

The patented design of our Scorpio collapsible mattress (No.GB2572141) prevents obscuring of vision panels as it ‘collapses’ when stood on end.

	<p>Available fire-retardant to BS7177 Ignition Source 5 or Ignition Source 7</p>		<p>An optional security under layer makes damage more noticeable during staff inspection</p>		<p>Unlike separate pillows, the optional integral pillow cannot be used to as a weapon or to block plumbing</p>

## KEY FEATURES MONSOON

- Pressure relieving CMHR foam interior
- Water-resistant heat welded seams to prevent liquid penetration – ideal for incontinence

## KEY FEATURES AQUARIUS

- Open-coil sprung mattress interior
- Layers of insulation and quilting for comfort
- Water-resistant, anti-bacterial breathable cover

**Please note:** Fluid can still penetrate stitching.  
For fully waterproof mattresses, please see Polar, Scorpio and Monsoon.

# NEXT STEPS

NOW IT'S TIME TO

MAKE ANY FABRIC

CHOICES AND PLACE

YOUR ORDER

# UPHOLSTERY

We provide an extensive range of water-resistant fabrics and vinyls to ensure that you will find the right finish for your furniture.

## Fabrics

A durable option which combines the comfort of soft fabric with practical water resistant properties. Please be aware, these fabrics are more susceptible to stains than vinyl.

Call us to request your fabric swatch cards to see the full choice available

## Vinyls

Hard wearing and water resistant, leather-effect vinyls can be wiped clean which makes them a hygienic and practical option for healthcare environments.

Call us to request your fabric swatch cards to see the full choice available

Some of our ranges are available using dual fabrics to add multiple textures and colours to one item of furniture.

Please note: Cracking and stickiness on vinyl fabrics are known issues to fabric manufacturers. As furniture manufacturers, Pineapple cannot accept responsibility.
