KEY FEATURES

- Plywood reinforcement for added strength
- Fully enclosed base to prevent concealment
- Removable seat and back cushions which allows for easy cleaning
- Strength and stability tested for severe contract use
- Seat static weight tested to 200kg

MATERIAL/FABRICATION

Constructed from a solid timber frame with plywood reinforcement for strength and durability. Comfortable seating which offers great support to head, arms and back. Cushioned areas made from fire retardant, high density CMHR (combustion modified high resilience) foam is safe for both users and staff. Like many of our sofa ranges, Akessen is available with additional reinforcement and other safety features to make sure it is exactly fit for purpose in challenging environments; these include, reinforced panels to seat, back and underside, security fixings to prevent tampering and no-piping or staples to minimise self-harm risks making it ideal for challenging environments.

TEST STANDARDS

- Fire retardant to BS7176:2007 source 5
- Strength and stability tested to BS EN 15373:2007 (Test level 3 - severe contract use)
- BS 4875; (2001) Part 1-4 test level 4
