

KEY FEATURES

- Versatile stacking stool
- Totally water-resistant and UV stabilised materials - perfect for outdoor use
- Made from 50% recycled content (polypropylene)

MATERIAL/FABRICATION

Apex is a collection of chairs defined by a series of distinctive lines. The construction marries a bold tubular frame with a slender wire seat, in a design which is both simple and comfortable. All chairs in the range stack efficiently and are suitable for both indoor and outdoor usage.

The Apex range is manufactured in the UK and constructed using Steel, zinc primer and powder coated materials (50% recycled steel content).

TEST STANDARDS

- BS EN 581-2: 2015 + CDM: 2016 Contract Level
