

KEY FEATURES

- Durable compact-grade laminate top
- Stackable for easy storage
- Tubular steel legs (56% recycled content)
- Suitable for indoor and outdoor use
- Wheelchair accessible

MATERIAL/FABRICATION

The Edit dining table is made from durable materials making it well-suited to both indoor and outdoor usage. The design features a compact grade laminate top, outdoor powder coated steel legs and soft touch stacking risers, allowing the table to stack efficiently. The tables feature a round or square top and come in either black or white. Manufactured in the UK and constructed using the following materials;

Legs - steel, zinc primer and powder coated
 Top - compact grade laminate
 Stacking bracket - recycled polypropylene

Using 50% recycled content for the steel
