

KEY FEATURES

- Elegant outdoor table range
- Powdercoated steel top with tubular powdercoated steel legs
- Totally water-resistant – perfect for outdoor use
- Made from 50% recycled content (steel)
- Designed to match our Apex seating range

MATERIAL/FABRICATION

The Vale collection consists of a broad range of steel tables. The construction marries a thin steel top with a bold tubular leg design inspired by organic forms. The range is well suited to outdoor environments using the latest protective primer and powder coating technology.

The Vale dining table range is manufactured in the UK and constructed using Steel, zinc primer and powder coated materials (50% recycled steel content).
