

FUSION

Heavily weighted
to improve safety

Pineapple

Designed by
Sophie Concadoro

During a disturbance in challenging environments like a mental health hospital or a prison, furniture can sometimes become the target of aggression.

If furniture is too light, it may be picked up, and thrown or swung as a weapon, posing a safety risk to staff and other patients.

An alternative is to fix furniture securely to the floor, but this solution isn't suitable for all environments.

Products in our Fusion range are heavily weighted, and have been designed to be difficult to pick up or throw.

Unlike traditional chairs and tables, Fusion products do not feature individual legs which could otherwise be broken and used as a weapon.

Products in the Fusion range can be fully upholstered in 2 different materials, offering extensive choice and customisation.

FUSION CHAIRS

Complies with strength test
EN 16139:2013 Test Level 2

Fusion low back chair
1FUDCL-400
930H | 470W | 650D (mm)
Seat height: 480mm
Weight: 50kg

Fusion high back chair
1FUDCH-400
1100H | 470W | 650D (mm)
Seat height: 480mm
Weight: 50kg

Fusion low back chair with arms
1FUACL-400
930H | 606W | 650D (mm)
Seat height: 480mm
Weight: 65kg

Fusion high back chair with arms
1FUACH-400
1100H | 606W | 650D (mm)
Seat height: 480mm
Weight: 65kg
