MATERIAL/FABRICATION

The Harby Plus range is constructed heavily weighted carcass made from a combination of melamine-faced particle board and vinyl-wrapped medium density fibreboard. Corners are smooth for additional safety as well as all edges being lipped in tough 2mm PVC. The thickness of the top panel is 25mm and the rest of the panels are 18mm thickness for strength and durability. A securely lockable 8mm polycarbonate safety screen, sloping top and piano hinges ensure ligature risks are minimised.

The pinboard is made from a 12mm solid Sundeala backing. Sundeala is a highly durable, environmentally friendly pinboard/noticeboard made from 100% recycled newsprint.
