

When we design furniture for some of the most difficult environments imaginable,	DECIONED
he first thing we do is listen. Listen to our customers' unique challenges, their day to	
day needs and above all, who they need to look after.	DESIGNED
	DEGITED
Listening is the first step of the 'Pineapple Process', helping us to find furniture that	FOD DE AOE
precisely solves the problem. If we don't have something suitable, we create it.	FOR PEACE
nnovative solutions, technical expertise and thoughtful design, we take pride in	IIIN FI ALII
creating furniture that's exactly fit for purpose.	
Our customers get mindfully designed furniture that works effortlessly and looks	
great. But much more than that, they can go to work knowing they've done	
everything they can to create a calm environment.	

### IT ALL BEGAN IN

Our founder, William Hathorn, started our company in a workshop in London, England. Originally trading as Pine Productions, based on the popular wood we used to build our furniture, we crafted strong, durable products using traditional carpentry methods. But as our business grew and we began to provide furniture in a variety of materials for the healthcare market, the name no longer fitted. So, with a nod to our beginnings, we took a bold step and became Pineapple.

As our reputation for designing for demanding environments grew, so did demand for our products and we soon expanded into new premises, doubling our production capacity. We started creating technically advanced furniture for secure settings like mental health units and prisons, as well as lower risk spaces like hospitals, healthcare and education facilities.

### 45 YEARS OF INNOVATION

We continue to create innovative furniture to deliver real-life solutions for our customers and, from initial concept right through to manufacture and delivery, we have full control of the process. All of our designs are either manufactured by us or by our carefully chosen partners who produce our furniture under license to meet our precise specification and design.

While our business is now international and our vision more ambitious than ever, we're still a family business at heart. Our work ethic and attention to detail is exactly the same as when we started in 1975.

We helped to create an inclusive, healing space for this mental health inpatient unit in Northern Ireland.

# BELFAST CITY HOSPITAL

From the outset, Belfast Health and Social Care Trust's recently opened Acute Mental Health Inpatient Unit was designed to be an inclusive, healing space for its residents. The unit comprises 80 bedrooms, 6 psychiatric intensive care unit (PICU) beds and variety of gardens and shared spaces.

With careful upholstery selection, reinforced furniture was used to create a tranquil environment which is relaxing and safe in equal measure.

In the communal lounges, Rubus sofas provide sturdy durable seating, paired with Cumulus coffee tables in a bespoke woodeffect finish, while Cumulus dining tables with matching wood-effect tops and Eclipse chairs create an informal dining/study space.

Reinforced Skye Plus and modular Ohio Plus offer relaxed seating throughout the building, while Snug Plus modular units have been used to create a variety of cosy layouts to suit each space.

Bespoke fitted cabinetry and brightly coloured furniture helped to create a safe, homely environment for this child-focused home.

# LANSDOWNE CHILDREN'S CENTRE

Lansdowne Children's Home is a purposebuilt secure children's home in East Sussex which provides accommodation and education facilities for young people, focusing on the educational, emotional and physical wellbeing of the children.

For the TV rooms and other communal spaces, we designed and installed bespoke fitted cabinetry to provide securely lockable storage space. The blues, greens and muted pink finish of the cabinetry follows the therapeutic colour palette seen throughout the building.

Ryno® dining chairs (weighted to 56kg to prevent misuse) were coupled with Cumulus Plus tables (weighted to 71kg) to provide safe and stylish furniture for dining or other activities.

All-foam Cascade Plus chairs provide soft seating with a tear-resistant anti-vandal cover. Heat welded seams make the chairs totally water-resistant which means they can be thoroughly cleaned and dry quickly, ready to be used again.

Providing easy access to good quality outdoor space was one of this building's fundamental design principles.

# ST ANN'S HOSPITAL

"We selected Pineapple
because of their excellent
knowledge of the
healthcare sector and
their range of products
suitable for high-risk
environments"

Throughout the ward corridors and outside garden areas our Ryno® benches and Ryno® stools were selected to provide areas of rest and relaxation.

Our robust Ryno benches can be weighted to up to 81kg, making them very difficult to pick up or mishandle. They can also be secured in place using our hidden floor fixing method (UK patent pending) to further reduce risks.

Our Ryno range has been designed to allow rainwater run-off and is totally waterproof, making products perfect for outdoor use.

We designed and manufactured bespoke fitted furniture in the bedrooms, installing them securely into a recessed portion of the wall.

The cabinetry was designed without doors to minimse ligature risks. All shelves and desk tops were reinforced with support panels, fixing them securely in place and creating a very strong and damage-resistant solution.

# SUSTAINABILITY

From operational improvents like solar power generation to seeking continual product related improvements, our Sustainability department is dedicated to enacting our carbon reduction plan to help minimise our impact on the environment.

Our goals are aligned with the relevant Sustainable Development Goals published by the United Nations:

Reduce	While our products are designed to withstand the rigours of life in challenging environments, we understand wilful
Goal 12 of the UN's 2030 Sustainable Development	damage can still occur.
Agenda urges us all to commit to more responsible	Where possible, we design our
production and consumption patterns.	products to be repaired in sections,
Our products are manufactured in accordance	like the modular design of many of our sofas which allow arms to be repaired
with these ideals. The demands of challenging environments can result in inadequate furniture being	independently of the rest of the sofa.
frequently broken, requiring replacement.	This approach helps to maximise the product lifecycle, minimising waste and
By creating furniture designed and built to last - even under extreme use - we're taking our responsbile production seriously.	the impact on the environment.

Re-use

# Recycle Products in our Ryno range are made from 99% low-density polyethylene which is completely recyclable. When the products reach the end of their useful life, they can be returned to us, ground down into small granules and used to create new pieces of furniture. The benefits of this approach are twofold: → One ton of recycled plastic can save over 2,500 litres of crude oil and 5,774 Kwh of → A reduction in waste sent to landfill

# **TESTING**

ING		Durability testing	
leve fabri Sou BS5 0,18 We mat Sou This	me retardant to contract el, all of our upholstery and rics meet BS 7176:2007 urce 0, 1 and 5 [Formerly 5852 Source and 5]. also supply fabric and ttresses which meet Crib urce 7. s allows you to purchase with		Static load testing  Our products are designed to withstand
that	nplete confidence knowing t all our products and fabrics fully tried and tested.	All of our furniture is strength and stability tested to contract level.  The picture above shows the Harrier sofa undergoing durability testing to BS EN 16139:2013 Level 2 (severe contract use).  In this demanding test, seat and back durability is tested at least 100,000 times.	severe daily treatment. One of the ways we test this is the static load test.  During this test, a heavy weight is applied to the seat of the product  Many of our products have been tested to withstand a 500kg static load

# INFECTION CONTROL

# GUARANTEE & SERVICE

With our hassle-free White Glove delivery service, we place your furniture in individual rooms and take away all packaging, leaving you with furniture ready for use.

Over the past forty years we've built our business on providing the best products and service in our industry. We're proud of the strength of our products as well as the relationships we have with our customers.

#### Giving you total peace of mind

Most of our furniture is guaranteed against manufacturing faults for 7 years

Our superbly durable Ryno® range comes with a lifetime guarantee

We pride ourselves on our aftercare service. Our support continues beyond the point of sale, going the extra mile to achieve complete customer satisfaction.

For exceptions, please see https://uk.pineapplecontracts.com/quarantee

# **OUR NETWORK**

Our growing global operation includes offices and partners around the world, ensuring that we can help customers wherever they are, whenever they need it

# VISIT OUR SHOWROOMS

Our UK showrooms in Kent and Yorkshire provide the opportunity to experience the comfort of our products for yourself as well as making side-by-side comparisons to ensure you make the right choice.

Feel free to bring your clients along too, have a coffee and look through materials and product options before making a decision.

### Book your visit

UK showrooms in Kent and Yorkshire Call +44(0)1622 237830 to book your visit

Can't make it?

If you can't make it to see us, we can always bring furniture samples to you.

Our demonstration models are an ideal way to help our customers make the right choice when it comes to furniture.

# THE FULL PACKAGE

#### Dining area

Stress can be heightened during mealtimes, so our furniture is designed to minimise conflict as well as withstand outbreaks of challenging behaviour. Our Ryno® activity table weighs 140kg to prevent overturning and preserve safety.

#### Quiet lounge

Modular reinforced seating like our Snug Plus range can help to encourage social inclusion, while soft foam shapes and cosy beanbags provide a safe space for quiet reflection.

Space efficient, easy-to-clean designs like Skye provide comfort for visitors while enabling staff to fulfil their duties more efficiently.

#### Bedroom

Bedrooms are private spaces where roundthe-clock observation may not be practical. Our safest bedroom ranges are designed to minimise ligature risks and reduce opportunities for damage.

#### Outdoor space

Products in our Ryno® range are totally water resistant and UV stabilised, and are heavily weighted as standard, making them a safe and durable option for outdoor spaces.

#### TV lounge

Lockable wall and floor mounted TV cabinets with durable polycarbonate screens offer protection for equipment, and there is extensive choice in our broad range of sofas.

# RYNO® COMRINING EXTRAORDINARY RESILIENCE WITH ORGANIC STYLING

Ryno products are made to the highest standards and designed to withstand the harshest treatment, representing value for money over their lifetime.

All have been created with safety in mind, with all their characteristics resulting in safer settings for users and staff.

Ryno products are totally water-resistant and UVstabilised, making them suitable for indoor and outdoor use in all weather

#### Lifetime guarantee

All Ryno products are covered by a lifetime guarantee against manufacturing faults, providing additional peace of mind below

The entire Ryno range is fire-retardant, adding an extra level of safety essential in challenging environments

Fixing
Using o

Using our unique hidden fastening methods, Ryno products can be secured to floors and/or walls, deterring weaponisation and reducing opportunities for concealment above

#### Heavyweight

Ryno products can be heavily weighted to make them near-impossible to pick up or throw, to create safer environments

Their one-piece
construction enables Ryno
products to withstand
extreme treatment, with
smooth curves distributing
impact evenly throughout
the product

#### Hygienic

Ryno products' waterresistant nature means they can easily be wiped clean, ready to be used again

Ryno multi-purpose cleaning wipes are available upon request

# RYNO<sup>®</sup> MATERIAL

Ryno products are manufactured from a unique polyethylene compound developed to create safe, durable products

A UV-stabilizing additive protects Ryno products against the damaging effects of the sun's rays, limiting color fading and brittleness when used for extended periods outdoors.

Ryno products are UL94 HB compliant due to the inherently flame-retardant properties of our polymer.

Made from 100% recyclable content, when the products reach the end of their useful life, they can be returned to us, ground down into small granules and used to create new pieces of furniture, reducing their impact on the environment

# RYNO<sup>®</sup> COLOURS

#### A palette of therapeutic hues

Colour can play a key role in humanising healthcare environments, which is why we enlisted the help of SeymourPowell, one of the world's leading design and innovation consultancies, to assist us in selecting a palette of therapeutic hues.

Whether the aim is to create a soothing and reassuring space or provide inclusive stimulation, our unique colours can help to achieve it.

<ul> <li>→ Armless design assists de-escalation practices and reduces likelihood of damage</li> <li>→ Full plywood reinforcement for extra strength and weight</li> </ul>	→ Wide choice of water-resistant upholstery Arm de-c	less design assists scalation

### DE-ESCALATION COUCH LOWERED CENTRAL SEAT **UPRIGHT SEATING POSITION** ANGLED DESIGN In situations where a patient is in severe distress and initial verbal de-escalation techniques have proven ineffective, physical intervention may be used as a last resort to prevent the patient causing harm to themselves and others. During physical intervention staff will aim to restrict the patient's movements using the minimum force required, maintaining patient dignity. These interventions can be physically demanding, presenting risk of injury. Through live service evaluations with clinical professionals, every angle of this couch has been optimised to support safer de-escalation practices for patients and staff alike. → Preserves patient dignity → Outer seats angled at 33° to allow closer patient → Helps to control lateral movement engagement, aiding verbal de-escalation → Supports staff in → Gives staff superior leg control → Tapered footwell aides staff in safe de-escalation processes de-escalation practices "Staff body positions are supported throughout a seated intervention -great to see such a design" Designed and developed Evidence-based design providing in association with: support when it's needed most. Andy Johnston Associates Andy Johnston is a Clinical Director and independent mental health consultant with over 32 years of experience in mental health services including conflict resolution and physical intervention. Beneficial for all levels of intervention Physical intervention specialist

## JAK DE-ESCALATION COUCH

This range has been designed to provide an ideal safety solution for beds in challenging environments.

#### Kydex material

The Sovie bed is coated in Kydex – a tough plastic which is commonly found in aircraft interiors. Kydex is an extremely durable finish which withstands impact and is resistant to tough chemical cleaners.

#### Flame retardant

Kydex has flame retardant properties:

- Achieves Class A rating (the highest) for ASTM
   E-84\* surface burning characteristics of building materials
- Is self extinguishing in the absence of an external flame

#### Anti-bacterial

Kydex resists bacterial and fungal development:

- It provides no source of nutrients (unlike some other plastics)
- → Passed ASTM G-21\* (bacteria) and ASTM G-22\* (fungus) by supporting no bacterial or fungal growth

#### Chemically resistant

Kydex remains unaffected by some of the harshest chemicals:

- $\rightarrow$  70% Nitric acid
- ightarrow 30% Sulphuric acid
- → 10% Hydrochloric acid
- $\rightarrow$  Ammonia
- $\rightarrow$  3% Hydrogen

Sovie's one-piece mattress platform has no joints or crevices through which liquid can permeate, preserving hygiene and infection control levels

Water resistance

## Strength al support vide extra

Internal support ribs provide extra strength and durability

#### Installation

Beds can be securely fixed to the floor, using infill panels to minimise concealment opportunities when positioned against a wall

#### SOVIE BEDS

Sovie single 3' box bed 1SVEA-100 470H | 1950L | 980W (mm) Mattress tray: 1880L | 910W (mm) Weight: 120kg

### SCORPIO COLLAPSIBLE

Versatile design serves multiple functions including making it usable for soft seating

The patented design of our Scorpio collapsible mattress (No.GB2572141) prevents obscuring of vision panels as it 'collapses' when stood on end.

Available fireretardant to BS7177 Ignition Source 5 or Ignition Source 7

An optional security under layer makes damage more noticeable during staff inspection

Unlike separate pillows, the optional integral pillow cannot be used to as a weapon or to block plumbing

#### SCORPIO COLLAPSIBLE

Scorpio Collapsible antivandal foam mattress Crib 5 1SOM26-63-3-TRIFOLDC5 76H | 1900L | 760W (mm)

Scorpio Collapsible antivandal foam mattress Crib 7 1SOM26-63-3-TRIFOLDC7 76H | 1900L | 760W (mm)

# KEY FEATURES OPTIONS ⇒ Tri-folding design to stop it from being stood on its end as an obstruction to viewing panels ⇒ Available with integral pillow ⇒ Tear-resistant, fire-retardant, anti-vandal polyurethane cover ⇒ Water-resistant heat welded seams to prevent liquid penetration – ideal for incontinence ⇒ CMHR foam interior

# NEXT STEPS NOW IT'S TIME TO MAKE ANY FABRIC CHOICES AND PLACE

## **UPHOLSTERY**

We provide an extensive range of waterresistant fabrics and vinyls to ensure that you will find the right finish for your furniture.

#### **Fabrics**

A durable option which combines the comfort of soft fabric with practical water resistant properties. Please be aware, these fabrics are more susceptible to stains than vinyl.

Call us to

request your fabric swatch

cards to see

the full choice available

Hard wearing and water resistant, leathereffect vinyls can be wiped clean which makes them a hygienic and practical option for healthcare environments.

Call us to request your fabric swatch cards to see the full choice available

Some of our ranges are available using dual fabrics to add multiple textures and colours to one item of furniture.

**Please note:** Cracking and stickiness on vinyl fabrics are known issues to fabric manufacturers. As furniture manufacturers, Pineapple cannot accept responsibility.
