

A woman with long blonde hair is sitting in a modern, light purple rocking chair, looking out a large window. The room has wood-paneled walls and a dark floor. A small table with a cup and saucer is next to her. The brand name 'RYNO' is visible in the top left corner.

RYNO[®]

The restorative
power of rocking

Pineapple

Designed by
Ross McLean

For many of us, a gentle rocking motion can be a source of comfort. It's especially true for those in crisis, feeling out of control of their situation.

Vestibular stimulation, provided by rocking back and forth can help to minimise the impact of outside stimuli, providing a source of focus and in turn, a feeling of calm.

The Ryno® Rocker gives users valuable control over their motion, while being supported by comforting wrap-around arms.

The gently sloped arms and low back design are carefully designed to minimise ligature risks. For added safety, the Rocker is available with additional weight (65kg) to deter misuse.

DESIGNED FOR PEACE OF MIND

Rocking motion provides
comfort, calm and control

Lifetime guarantee

Like all Ryno products the Rocker is protected by a lifetime guarantee against manufacturing faults, giving you total peace of mind.

Waterproof

Made from a single piece of rotationally moulded polyethylene with no joins, the Ryno Rocker is totally waterproof.

Please note, drainage holes and outdoors usage is not recommended as exposure to the elements may cause surface discoloration

Damage resistant

The single-piece construction helps to distribute stresses throughout the product, making it extremely resistant to damage.

Hygienic

The polyethylene material is naturally resistant to bacteria and bedbugs by providing no organic matter as a source of food.

Made with recycled content

Made from 100% polyethene, we incorporate recycled content into every product, and what's more, at the end of their life they can be returned and recycled again.

*Shaped to reduce
ligature risks*

RYNO® ROCKER
