# FURNITURE FOR EDUCATION SPACES

# Pineapple

# **ABOUT US**

# Over 45 years' expertise transforming challenging environments

#### Our expertise

For the past 45 years we have been helping to transform challenging environments with style and quality , with total commitment to safety and durability.

Our products are strength and stability tested to British Standards for severe nondomestic use and are fire retardant to Crib Source 5 minimum (Crib Source 7 available for certain products) to give you peace of mind.

Our human-centred design solutions help to create safer, longer lasting furniture for pupils and staff alike.

#### Our service

- ightarrow 7 year guarantee against manufacturing faults
- ightarrow Free demonstration furniture
- ightarrow Free spaceplanning design service
- ightarrow Free showroom tours

# VISIT OUR Showrooms

Our showrooms at our Headquarters in Kent give you the opportunity to experience the comfort and quality for yourself. Contact us to arrange your appointment.

# IT ALL BEGAN IN

Established in 1975, we originally began trading as Pine Productions, based on the popular wood we used to build our furniture.

While our business is now international and our vision more ambitious than ever, we're still a family business at heart.

Our work ethic and attention to detail is exactly the same as when we started in 1975.

Ipswich High School's ethos is to put each pupil's happiness and success at the heart of everything they do. The award-winning Barns boarding house embodies this approach

#### **CASE STUDY** Ipswich High School

In order to broaden its appeal to pupils from outside the area, Ipswich High School refurbished these Grade II listed cattle barns to create high-quality student accommodation which went on to win "Best Boarding House Extension or Refurbishment at the Boarding Schools' Association awards.

Pineapple furniture was specified throughout the building, helping to create a modern space for boarders to call home.

Touch chairs and barstools provide versatile seating in the kitchen and dining areas, while modular Snug sofas create a cosy corner for watching TV. Statement Smile chairs provide both private and collaborative seating options throughout the space.

"An incredible transformation which has breathed life into old buildings. The decor and the modern furniture complement the buildings' original quirky features."

National University Ireland (NUI) Galway's newest student accomodation development, Goldcrest Village, increases their on-campus capacity to 1,200 students

#### **CASE STUDY** NUI Galway

Looking for furniture to compliment their clean and modern amenity space designed by Coady Architects, the client selected a variety of Pineapple products upholstered in bright fabrics to create a vibrant community space.

Snug sofas are used to great effect, creating social spaces which help to encourage togetherness, with their modular form helping to define the large open-plan space.

High and low back Smile chairs provide invdividual seating, with subtle curved wings which provide a sense of reassurance and privacy, while Zen chairs in a two-tone fabric offer a laidback option for those seeking quiet contemplation. "We wanted to create a welcoming space for our students to spend time in, and I think we've really achieved that with this furniture selection."

# SUSTAINABILITY

From operational improvents like solar power generation to seeking continual product related improvements, our Sustainability department is dedicated to enacting our carbon reduction plan to help minimise our impact on the environment.

Our goals are aligned with the relevant Sustainable Development Goals published by the United Nations:

Reduce	
Goal 12 of the UN's 2030 Sustainable Development Agenda urges us all to commit to more responsible production and consumption patterns.	
Our products are manufactured in accordance with these ideals. The demands of challenging environments can result in inadequate furniture being frequently broken, requiring replacement.	
By creating furniture designed and built to last - even under extreme use - we're taking our responsbile production seriously.	

#### Re-use

While our products are designed to withstand the rigours of life in challenging environments, we understand wilful damage can still occur.

Where possible, we design our products to be repaired in sections, like the modular design of many of our sofas which allow arms to be repaired independently of the rest of the sofa.

This approach helps to maximise the product lifecycle, minimising waste and the impact on the environment.

#### Recycle

Products in our Ryno range are made from 99% low-density polyethylene which is completely recyclable.

When the products reach the end of their useful life, they can be returned to us, ground down into small granules and used to create new pieces of furniture.

The benefits of this approach are twofold:

- → One ton of recycled plastic can save over 2,500 litres of crude oil and 5,774 Kwh of energy
- ightarrow A reduction in waste sent to landfill

# TESTING

# Flame retardance Flame retardant to contract level, all of our upholstery and fabrics meet BS 7176:2007 Source 0, 1 and 5 [Formerly BS5852 Source 0, 1 and 5]. We also supply fabric and mattresses which meet Crib Source 7. This allows you to purchase with complete confidence knowing that all our products and fabrics are fully tried and tested.

 All of our furniture is strength and stability tested to contract level.

 The picture above shows the Harrier sofa undergoing durability testing to BS EN 16139:2013 Level 2 (severe contract use).

 In this demanding test, seat and back

durability is tested at least 100,000 times.

Durability testing

#### Static load testing

Our products are designed to withstand severe daily treatment. One of the ways we test this is the static load test.

During this test, a heavy weight is applied to the seat of the product

Many of our products have been tested to withstand a 500kg static load

# GUARANTEE & SERVICE

Over the past forty years we've built our business on providing the best products and service in our industry. We're proud of the strength of our products as well as the relationships we have with our customers.

Giving you total peace	ofmind		
Most of our furniture is guaranteed aga manufacturing faults for 7 year	nst dur ran wit	r superbly able <b>Ryno®</b> ge comes h a lifetime arantee	

For exceptions, please see https://uk.pineapplecontracts.com/guarantee

We pride ourselves on our aftercare service. Our support continues beyond the point of sale, going the extra mile to achieve complete customer satisfaction.

# REINFORCED For peace of mind

All of our products are designed and tested for use in demanding environments, but for the most challenging spaces, our sofas are available with additional reinforcement for maxmimum strength and durability.
