

# ADORA PLUS

Reinforced

Seating

Pineapple

With its sweeping curves and contemporary upholstery detailing, Adora Plus is an elegantly designed and visually striking seating range which is at home in any space.

But behind Adora's elegant shape lies an array of carefully engineered safety features specifically tailored for mental health environments.

One of the stand out features is Adora's rounded shape, which when combined with its substantial weight helps to prevent it from being pickup up and misused. Furthermore, any

space around the seat cushion has been minimised to reduce concealment opportunities.

Internally, a reinforced structure provides long-term robustness which minimises instances of damage and helps to extend the lifespan of the furniture.

Adora's low height improves safety by allowing staff to maintain valuable line-of-sight observation throughout the space. Its hollow piping (available in contrasting colours) also adds visual flair while avoiding the ligature risks associated with traditional piping.
