

FYNN

Reduced-ligature
task lighting

Pineapple

Lighting can play a key role in humanising healthcare spaces, bringing visual warmth and providing a softening effect to the built environment.

Task lighting can be used in conjunction with natural daylight and ambient lighting to provide additional brightness for specific activities like reading and writing.

Like all fixtures and fittings in mental health environments, lighting must be sensitively designed to preserve safety by minimising ligature risks, preventing tampering and reducing the likelihood of damage.

Engineered to withstand harsh treatment in challenging environments, Fynn features a strong cast aluminium construction and a durable powder coated finish. The subtly sloped design helps to reduce ligature risks, and security fixings deter tampering.

Fynn's long-lasting energy efficient LEDs reduce maintenance needs, and users have control over the light's brightness through a tactile touch-sensitive dimming function.

DESIGNED FOR PEACE OF MIND

Simple touch dimming operation

Reduced ligature

The sloping shape has been carefully designed to minimise ligature risks.

Anti-vandal

Designed to withstand harsh treatment in challenging environments, Fynn has been impact tested to IK08 and features anti-tamper fixings.

Resistant finish

The strong cast aluminium construction has a durable powder coated finish, and is paired with a 6mm polycarbonate lens.

Touch operated

With capacitive touch dimming, users can control the 3 brightness settings by simply touching the case.

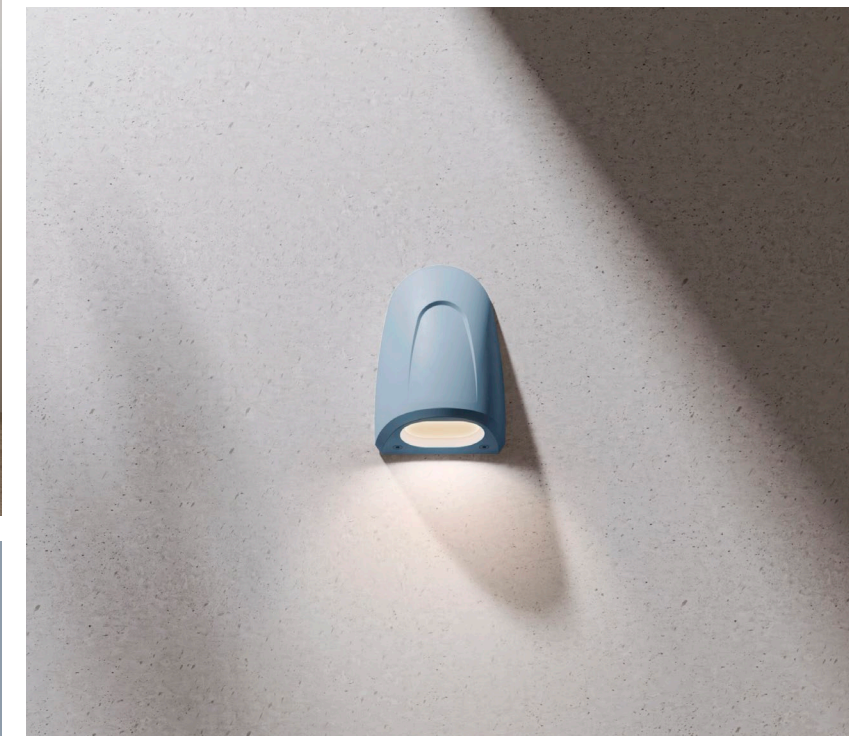

Illumination

Long-lasting energy efficient 5W LEDs emitting 278 lumens with a Warm White or Cool White bulb colour.

Splash-resistant

Fynn is tested for splash resistance with an IP44 rating.

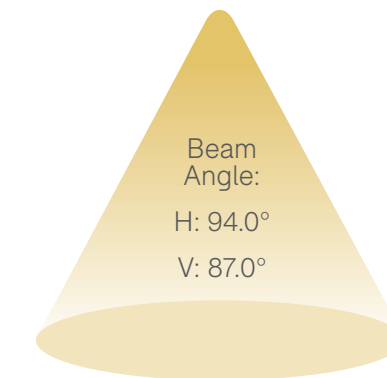

FYNN TASK LIGHT

Fynn task light
1FY230-WW-MG
175H | 120W | 100D (mm)

KEY FEATURES

- Reduced-ligature design and anti-tamper fixings to protect users from harm
- Cast aluminium case which is impact tested to IK08 to ensure durability
- User-friendly touch-operated dimming control
- Energy efficient 5w LEDs
- Splash-resistant IP44 rating
- 6mm shatter-resistant polycarbonate lens

OPTIONS

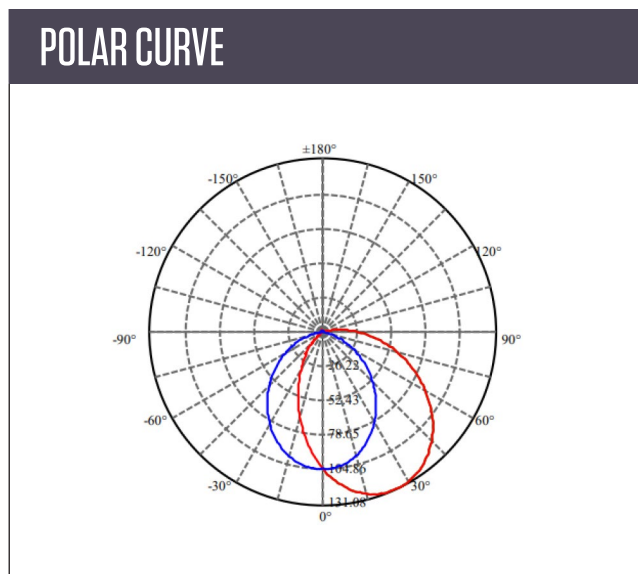

- Choose from Warm White (3000k) and Cool White (4000k) bulb colour
- Choose from Polar White, Cool Green, Dusty Blue, Teal, Moonwalk Grey and Anthracite Grey

SPECIFICATION

SPECIFICATION			
Supply Voltage	AC100 - 265V	Impact Rating	IK08
Light fixture dimensions	175H 120W 100D (mm)	Water Resistance	IP44
Weight	0.73kg	Lumens	278
Beam angle	H: 94.0° ; V: 87.0°	Wattage	5W LED
Frequency	50/60HZ	Efficiency class	G
Light Colour	Warm White option 3000k Cool White option 4000k
