

KEY FEATURES

UK Registered Design No. 6405558 (Armchair) | 6405559 (2-Seater)

- Fully upholstered with anti-concealment seams
- Plus levels of reinforcement for durability
- Security fixings for additional security
- Durable solid surface arm caps for easy cleaning
- Wall saver feature prevents backrest from touching wall
- Designed with a 104.9° backrest angle for optimal comfort and support
- Strength and stability tested for severe contract use EN 16139:2013
- Ideal for high traffic areas in challenging environments

MATERIAL/FABRICATION

White solid surface arm caps provide a durable, non-porous, easy-to-clean finish. The generously proportioned seat cushion is manufactured from CMHR (Combustion Modified High Resilience) fire-retardant foam, delivering lasting comfort, support, and durability.

The internal frame is constructed from robust plywood throughout the seat platform and base, providing exceptional structural strength. Anti-tamper security fixings are fitted as standard to enhance suitability for challenging environments.

Plus models feature increased internal weighting, additional structural reinforcement, and design features that minimise opportunities for concealment.

Ø38 mm screw-on PTFE round glides provide a durable, low-friction contact surface, helping to protect floor finishes while allowing smooth repositioning during cleaning and room layout changes.

TEST STANDARDS

- Strength & stability (EN 16139:2013 Level 2)
  - for adults weighing up to 110kg
- Static weight test (seat) as per EN 1728:201, Clause 6.4 at 500kg (4905N) for 10 cycles
