Designed for the most demanding environments, Nora is an anti-vandal pillow which complies with the very highest flammability standards, and avoids the need for a pillowcase – something which could otherwise pose a safety risk.

Comfortable and soft to the touch but resistant to damage, Nora's heavy-duty covering and welded seams work together to create a water-resistant and anti-vandal pillow. An integrated hydrophobic vent allows air to move freely while protecting the interior of the pillow from fluid ingress.

Inside, a fire-retardant liner surrounds the supportive filling made from 100% recycled polyester fibre filling. Nora has been tested to Crib Source 7, making it suitable for locked establishments like custodial facilities.
