

BURLA

Low back for visibility, flared design for stability, and compact footprint for space

Pineapple

REINFORCED FOR PEACE OF MIND

Our sofas are available in both “Standard” and “Plus” levels of reinforcement.

Choose the version which suits your environment best.

STANDARD VS PLUS

STANDARD	Durable construction, perfect for low risk spaces	
	<div><div>Webbed back</div><div></div><div>+ Reinforced seat adds strength & durability</div></div>	<div><div></div><div>Cloth underside</div></div>
PLUS	Enhanced strength and safety features for challenging environments	
	<div><div>+ Reinforced back adds strength & durability</div><div></div><div>+ Reinforced seat adds strength & durability</div></div> <div><div></div><div>→ Security screws are used (where accessible) to prevent tampering</div></div>	<div><div>+ Reinforced underside adds strength & reduces concealment opportunities</div><div></div></div> <div><div></div><div>→ No piping to reduce ligature risks → No staples to reduce self-harm risks</div></div>

(Note) Sofa shown is an example and does not depict the Burla range

The **Burla** and **Burla Plus** seating range is available as an armchair, 2-seater, and 3-seater.

Designed for safety and stability, Burla features a flared, tapered shape to enhance reduced-ligature safety while ensuring stability with its wide base. Sloped arms provide a comfortable seating position, while the low back design improves room visibility.

Burla has been strength and stability tested for severe contract use and the seat has been static load tested to 500kg, ensuring its durability in demanding settings. Despite its robust design, the range features a compact footprint, making it ideal for challenging environments where space is limited.

A continuous, smooth design allows for easy cleaning, while the removable seat cushion facilitates contraband checks.

Burla Plus includes a fully reinforced seat and backrest with a solid baseboard for added durability and strength.

Zero-depth, anti-stash seams further enhance safety, and the new burst-proof zip on Burla Plus models is impact- and damage-resistant, making it ideal for medium to high-risk environments.

BURLA

Seat static weight tested to 

Burla Armchair
Single fabric: 1BA1-200

775H | 1040W | 890D (mm)
Seat height: 450mm
