

# ROCK LOUNGE

Strength &  
elegance

Pineapple

The **Rock Lounge** range brings together modern style and lasting durability in a versatile seating solution designed for demanding environments. With four distinct chair options—low back or high back, with or without arms, each chair features tapered legs and a cross-braced sled base, offering enhanced strength and manoeuvrability, while the low seat height provides a relaxed, comfortable position for extended use.

An expansion of our popular Rock Dining range, Rock Lounge has been developed to meet the growing demand for robust yet stylish lounge seating. Each chair is fitted with CMHR (Combustion Modified High Resilience) foam seat and back cushions, securely fixed to deter tampering or misuse.

Upholstery is available in a wide variety of fabrics, from bold statement colours to soft, neutral tones. These materials have been carefully selected for their high durability, water resistance, ease of cleaning, and fire-retardant properties—meeting safety standards including Crib 5 and Crib 7.

A key feature of the range is its expertly crafted solid birch frame, with interconnected legs creating a rigid, supportive structure that stands up to heavy use while minimising wear over time. Tested to withstand up to 500kg static load, the Rock Lounge collection offers a perfect balance of contemporary design and durability—ideal for high-traffic lounges, breakout areas, and public spaces.
