

RYNO[®] DINING CHAIR 2.0 → FLOOR FIXING

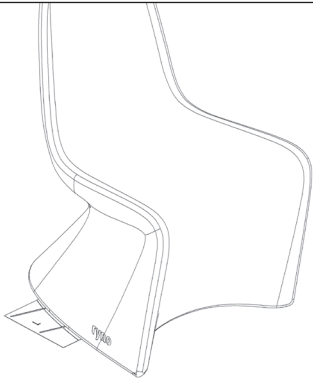

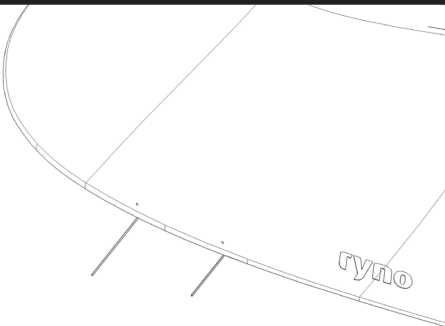

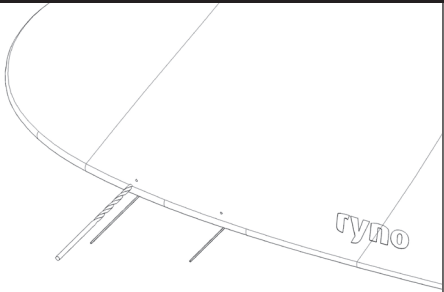

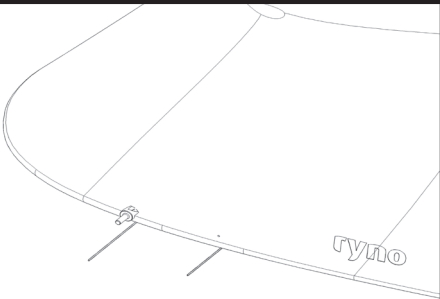

These instructions apply only when fixing to a concrete floor with no obstructions (e.g. under floor heating, cables, plumbing, etc.). When fixing to any other surface, or with obstructions, please contact your Pineapple representative for further advice

REQUIRED ITEMS	→	X2 Floor fixing templates	
	→	X2 Floor brackets	
	→	X4 Long countersunk head security screws	
	→	X1 Extra long drill bit	
	→	X1 Counter sink drill bit	
	→	X4 Concrete hardware fixings	
	→	X1 Masonry drill bit	
	→	Handheld power drill	
	→	X1 T25 Security bit	

RYNO[®] DINING CHAIR 2.0 → FLOOR FIXING

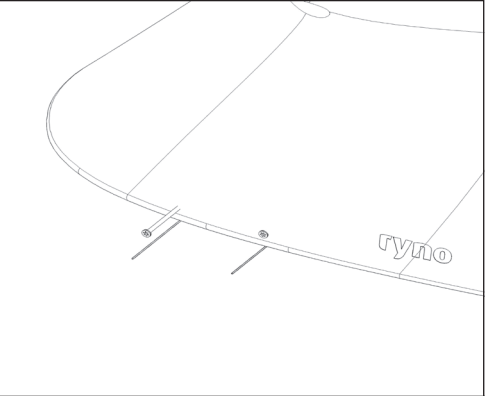

01		Place and secure the template to the ground ensuring the two templates meet edge to edge in the middle.	
		Using a centre punch mark out the 4 floor fixing locations.	02
03		Using an appropriate masonry drill, create a hole suitable for the concrete fixings.	
		Place the two floor fixing brackets over the drilled holes and secure to the floor using appropriate hardware.	04

RYNO[®] DINING CHAIR 2.0 → FLOOR FIXING

05	Place the chair over the brackets ensuring it sits completely on the ground.	
	Using the template, mark two points on the chair 30mm from the ground and in line with the guidelines. Also mark the floor with two lines - using the guidelines. Remove the chair and template.	06
07	Place the chair back over the brackets. Using the extra-long drill bit slowly drill through the product at the two previously marked points. Make sure it goes through both walls of the floor bracket and remains parallel to the ground. The drill will ideally need lubrication and be at a very low speed.	
	Use the counter sink drill bit to create a small counter sink on the surface of the product.	08

RYNO® DINING CHAIR 2.0 → FLOOR FIXING

09	Drive the Long Security Screws through the previously created holes ensuring the head of the screw ends up flush to the product.	

DISCLAIMER

	→ Ensure the proper and adequate hardware is used to secure furniture → Ensure fixings are appropriate for the anchoring material → Use fixings of an appropriate strength and consider using security fixings in challenging environments → Consider using high strength thread-locker on fixings in challenging environments → Ensure all gaps are sealed with the appropriate anti-pick mastic after product installation if necessary → Please read all instructions carefully to ensure proper installation. Failure to read and follow instructions may result inadequate product installation and void of warranty → Pineapple shall not be held liable for any consequences caused by the improper installation of products to the installer or the end user
