- Fixed seat cushion and anti-stash seams
- Fully enclosed based with inaccessible fixings to prevent tampering
- Heavilyweighted to deter misuse
- Reduced-ligature for safety
- Seat rebated into back and additional strength
- Teflon glides to base to protect flooring

MATERIAL/FABRICATION

A rounded plywood shell provides dependable strength while eliminating sharp edges, supporting both longevity and user wellbeing. The internal frame is constructed from durable plywood board throughout the seat platform and base, enhancing structural stability and strength. Anti-tamper security fixings further support suitability for challenging environments. Domus Plus 2.0 has been thoughtfully designed for mental health settings.

Domus Plus 2.0 is manufactured using CMHR (Combustion Modified High Resilience) foam within the seat cushions, providing a balance of comfort, support, and enhanced fire performance suited to demanding environments. The foam specification has been carefully selected to deliver long-lasting comfort and durability in everyday use. Plus models are heavily weighted and include additional internal reinforcement, alongside features designed to reduce stashing opportunities.

TEST STANDARDS

- Strength and stability tested to BS EN 16139:2013
