Summer 2026

**Pineapple**

We understand the power of good design. That's why we believe that environments should feel welcoming and respectful, while still providing the highest standards of safety.

By combining innovation with a deep understanding of clinical needs, we create furniture that supports both service users and staff. And with over 50 years of experience, we know how thoughtful design can positively influence wellbeing, dignity, and recovery.

This latest collection brings together robust construction, calming aesthetics, and enhanced safety features developed through real-world insight and collaboration. From anti-ligature seating to durable bedroom solutions, each piece has been carefully engineered to reduce risk without compromising comfort or style.

These new additions reflect our ongoing commitment to raising standards - helping spaces feel safer, softer, and more human.

# Mollu

Mollu is a welcoming tub chair designed to soften mental health environments. With an optional 180-degree swivel base which allows gentle movement, Mollu can support self-regulation and sensory grounding.

The enveloping form fosters a sense of reassurance, while shallow seams minimise opportunities for concealing harmful items. The spherical shape discourages ligature attachment and prevents the chair from being easily picked up, helping to protect people from harm.

Mollu was recently awarded a prestigious Design Guild Mark which recognises highest standards of originality and innovation in industrial design.

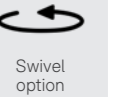

Mollu's 180-degree swivel base allows gentle movement which can support self-regulation and sensory grounding.

# MOLLU

**Mollu tub chair**  
 1MU1-100  
 820H | 950W | 910D (mm)  
 Seat height: 470mm  
 Weight: 40kg

Swivel option

Floor fixed option

## KEY FEATURES

- Spherical shape designed to minimise ligature risks and prevent lifting
- 100% waterproof base designed to withstand regular cleaning
- Base made from 80% recycled content
- Strength and stability tested for severe contract use

## OPTIONS

- Optional swivel base to support self-regulation and sensory grounding
- Optional floor fixing (not compatible with swivel option)
- Wide choice of water-resistant upholstery

Designed for mental health environments, Domus combines safety, durability, and calm aesthetics.

With its clean lines, natural materials, and reassuring form, this range offers a practical yet reassuring solution for secure, therapeutic spaces.

A rounded plywood shell provides dependable strength while eliminating sharp edges, supporting both longevity and user wellbeing.

The fixed cushion prevents movement or tampering, ensuring consistent performance in demanding settings.

Anti-concealment seams are carefully engineered to minimise risk, preventing items from being hidden within the upholstery.

Seat static weight tested to

Heavily weighted

**Domus Plus 2.0 armchair**  
 1DS1-100  
 779H | 780W | 738D (mm)  
 Seat height: 460mm  
 Weight: 35.5kg

**Domus Plus 2.0 2-seater**  
 1DS2-100  
 781H | 1353W | 738D (mm)  
 Seat height: 460mm  
 Weight: 57.5kg

## KEY FEATURES

- Combines sumptuous wrap-around comfort with durable reinforcement
- Plywood reinforcement, including a fully enclosed base to prevent concealment
- Fixed seat cushion and anti-stash seams
- Heavilyweighted to deter misuse
- Reduced-ligature design for safety
- Seat rebated into back for additional strength

## OPTIONS

- Wide choice of water-resistant upholstery

*Reduced-ligature design*

The Hush acoustic chair is designed to mitigate noise levels in mental health spaces, creating a calm and supportive environment for users.

Its sound-absorbing headrest helps provide a private area for phone calls or quiet reflection, while the open design allows for easy observation by staff.

Safety is prioritised through its reduced-ligature design, fixed cushions and anti-stash seams, making the chair suitable for challenging environments.

By combining comfort, privacy and practical safety features, the Hush chair promotes wellbeing and personal space in busy healthcare settings.

Like all Ryno products, the Combo table base is made from waterproof, impact-resistant rotationally molded polyethylene, molded from a single-piece which ensures there are no joints or seams that could otherwise become points of weakness.

Compared with a conventional table with four legs, the Combo table's monobloc pedestal base design reduces the risk of damage and helps to protect users and staff from harm.

Now, with the introduction of a water-resistant solid grade laminate (SGL) tabletop, the Combo table is also suitable for outdoor use, extending its durability and versatility beyond interior spaces.

# RYNO® COMBO TABLE

**Ryno Combo table with 960 x 960mm top**  
1RYTPO1  
770H | 960W | 960D (mm)  
  
Floor fixed weight: 47kg  
Weighted option: 135kg

**Ryno Combo table with 1200 x 1200mm top**  
1RYPTO4  
770H | 1200W | 1200D (mm)  
  
Floor fixed weight: 56kg  
Weighted option: 145kg

**Ryno Combo table with 2400 x 1200mm top**  
1RYPTO6  
770H | 2400W | 1200D (mm)  
  
Floor fixed weight: 111kg  
Weighted option: 199kg

## KEY FEATURES

- Durable polyethylene pedestal base is damage-resistant, reduces ligature risks and cannot be weaponised unlike conventional table legs
- Hygienic wipe-clean laminate table top with anti-spill edging
- Smoothly rounded edges with soft-touch edging for safety
- 745mm space between the floor and underside of the table
- Polyethylene material is compliant with flammability standards UL94 HB & BS 5852:2006

## OPTIONS

- Heavily weighted or hidden floor fixing option
- Grey-edged top available in Hickory and Grey. Additional options (laminated, plywood edge) also available
- Base available in a wide range of versatile colours:

→ Core colour

Minimum order quantity of 12 units

# Ryno 2.0

Building on the success of the original Ryno dining chair, first launched in 2013, this latest design combines proven durability with enhanced comfort and safety.

Practicality remains at the core of the Ryno Dining 2.0. The chair is 100% waterproof, with a hygienic wipe-clean surface which is easily kept clean.

Developments in our manufacturing technology means we now use renewable electricity sources, and energy wastage has been reduced, minimising the chair's carbon footprint.

# RYNO® DINING 2.0

**Ryno Dining 2.0**

## OPTIONS

- Lightweight model (11kg)
- Anti-concealment base plate
- Hidden floor fixing solution
- Wide range of versatile shell colours

# *Arc*

The Arc washroom range sensitively addresses ligature concerns through its flowing curved design, while lending a serene aesthetic to its surroundings.

Manufactured from a non-porous, stain resistant solid surface material, Arc products offer excellent hygiene properties. The seamless design eliminates dirt-traps which are commonly found in traditional fixtures.

Arc products are secured with innovative non-visible fixings, minimising opportunities for tampering.
