

ACUMEN CPAP STORAGE CABINET

1AU-CPAP

368H | 462W | 352D (mm)

Door Panel: 22mm

All Other Panels: 18mm

Weight: 13kg

KEY FEATURES

- Heavy weighted to deter misuse
- Reduced ligature design features
- Vented to allow heat to escape
- Vents can be inserted and removed as needed to accommodate for different tube locations
- Lockable with a key
- Can be wall mounted or worktop mounted

MATERIAL/FABRICATION

Constructed from a heavily weighted carcass using a combination of melamine-faced particle board (MFC) and vinyl-wrapped medium-density fibreboard (MDF), providing exceptional strength, durability and long-term performance. All exposed edges are protected with robust 2mm PVC lipping to help prevent moisture ingress, while smoothly radiused corners enhance safety.

Designed with safety as a priority, the cabinet features scalloped handles, curved door tops and full-length brass-plated steel piano hinges to help reduce ligature risks. Anti-tamper security fixings are supplied as standard.

The cabinet is assembled using cam and dowel construction with high-strength white adhesive for added structural integrity. Ventilation components, including the grommets and Snap-Fix vent, are manufactured from durable PETG, while the locking mechanism combines die-cast and steel components with a steel strike plate for enhanced strength, security and reliability.

OPTIONS

- Available with left-hand or right-hand door (vents on hinged side of the door)

TEST STANDARDS

- Surface durability tested to BS6250
- BS 476: Part 7: 1997 (Classification of the surface spread of flame of products)
- UL723 (Surface burning test - US standard)

COLOUR/FINISH

Acumen Grey comes in Naural Rockford Hickory K086 as standard, with a Gloss Light Grey wrapped vinyl door

ASSEMBLY/INSTALLATION/FITTING

Arrives assembled and ready to use. Please advise if wall fixing when ordering, all products to be fitted by Pineapple (where applicable). If not, any guarantee is at risk of becoming null and void.

When fitting the Snap-Fix vents, insert using gentle, even pressure. If removal is required, carefully push the vent out from the inside of the cabinet.

MAINTENANCE

Visit our care guidance section on our website for more information.

WARRANTY

7 year guarantee.
