

ZEN PLUS ROCKER

1ZENRP1-P-900

1015H | 707W | 1075D (mm)

Seat Height: 337 - 461mm

Weight: 58kg

UK Registered Design No. 6131314

KEY FEATURES

- Fluid rocking motion provides a source of focus and calm
- Smoothly reclined shape prevents pressure points and provides comfort
- Evenly distributed additional weight to prevent overturning
- Plywood reinforcement for added durability
- Robust HDPE sledge base delivers long-lasting performance
- Anti-stash seams helps prevent concealment opportunities

MATERIAL/FABRICATION

Rocking can provide focus and a calming sense of release, helping to reduce the impact of outside stimuli, particularly for those living on the autism spectrum.

Zen Plus Rocker is constructed with CMHR (combustion modified high resilience) foam for support, durability and comfort, and features a robust HDPE sledge base for long-lasting performance. This hard-wearing base offers a safe alternative to timber, with no risk of splintering or chipping, while the textured underside helps reduce movement on floor surfaces.

Recessed security screws help protect flooring, and anti-stash seams reduce concealment opportunities in challenging environments.

TEST STANDARDS

- BS EN 16139:2013 (Test level 2 - general use)
- Fabrics fire retardant to BS7176:2007 source 5

OPTIONS

- 16mm recycled HDPE base only (RAL 7021) ●
- Available with fixed arms only
