

ZEN PLUS

Rocker

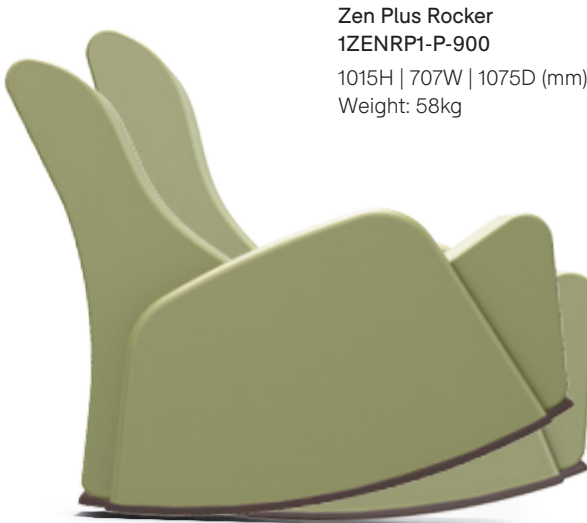

Pineapple

For many of us, a gentle rocking motion can be a source of comfort

It's especially true for those on the autism spectrum - rocking back and forth can help to minimise the impact of outside stimuli, providing a source of focus, and in turn, a feeling of calm.

The Zen Plus Rocker's heavily weighted design makes it safe and stable, while internal reinforcement provides the strength and durability required for challenging environments.

Zen Plus Rocker
1ZENRP1-P-900
1015H | 707W | 1075D (mm)
Weight: 58kg

KEY FEATURES

- Fluid rocking motion provides a source of focus and calm
- Smoothly reclined shape prevents pressure points and provides comfort
- Evenly distributed additional weight to prevent overturning
- Plywood reinforcement for added durability
- Robust HDPE sledge base delivers long-lasting performance, with a textured underside to help reduce movement on flooring
- Security screws and inaccessible staples to prevent tampering
- Strength and stability tested to BS EN 16139:2013 (Test level 2 - general use)
- Anti-stash seams helps prevent concealment opportunities

OPTIONS

- Can be upholstered in 2 fabrics (arm and carcass separately) for added personalisation
- Wide choice of water-resistant upholstery

*Provides a source
of focus and a
feeling of calm*
