RYNO SAFEWASTE XL → OPERATION INSTRUCTIONS

→ TROLLEY INSTALLATION

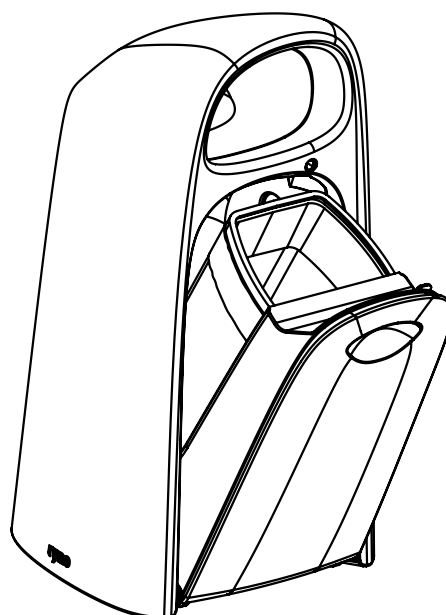

01

→ Wheel trolley so it faces the base and is aligned correctly.

02

→ Ensure the trolley is tilted forwards adequately and wheel it into its space.

RYNO SAFEWASTE XL → OPERATION INSTRUCTIONS

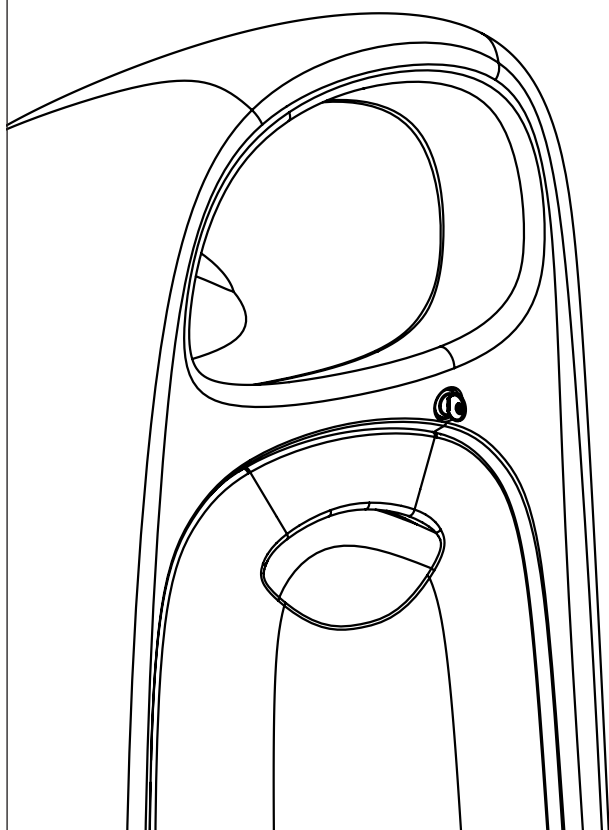

03

→ Push the trolley fully back into position, then slowly tilt it upright. Ensure the trolley feet are securely locked into the baseplate.

04

→ Securely lock the trolley into place by turning the lock clockwise.

→ IMPORTANT SAFETY INFORMATION

- **Staff Use Only:** The pull-out trolley should only be operated by authorised staff.
- **Manual Handling:** Take care when pulling out, tilting and manoeuvring the trolley, particularly when containing waste. Do not exceed the recommended load capacity.
- **Secure Positioning:** Ensure the trolley feet are correctly engaged with the baseplate and the trolley is securely locked after each use.
- **Pinch Points:** Keep hands and fingers clear of moving parts when tilting and returning the trolley to its upright position.
- **Safe Waste Disposal:** Remove and dispose of waste in accordance with the facility's waste management and infection control procedures.
- **Regular Inspection:** Routinely check the wheels, handle, locking mechanism and baseplate for signs of damage or wear. Do not use if damaged.
